

BABYLON KNOWLEDGE LLC

Amazon Connect & GenAI Contact-Center Modernization for Government

Ali (Alex) Nssaif, Founder & Principal Architect

babylonknowledge.com · Mission Viejo, CA

COMPANY OVERVIEW

Babylon Knowledge is a small business that modernizes public-facing contact centers. We move agencies off legacy IVR and PBX platforms onto Amazon Connect, then deploy GenAI self-service bots and agent assist with Amazon Bedrock, Amazon Q and Lex. That cuts call volume and wait times and gives every agent the full case history on screen. Work is led by a principal architect with 12+ years in Unified Communications and contact centers and 20+ years in enterprise IT.

CORE COMPETENCIES

- Amazon Connect contact centers:** design, build and migration from legacy IVR/PBX, contact flows, Lambda, DynamoDB, SIP trunking
- GenAI bot deployment:** Amazon Bedrock, Amazon Q and Lex voice and chat bots for self-service, real-time agent assist, RAG knowledge bases, guardrails
- Custom agent desktops and CRM:** Streams.js and React contact control panels; Salesforce, ServiceNow and Dynamics integration
- Analytics:** Contact Lens, QuickSight deployment and user training, CloudWatch KPI reporting
- Resilient, compliant delivery:** multi-region DR, HIPAA- and PCI DSS-aware design, GovCloud-aware architecture, CloudFormation, Terraform, CDK
- Also supported:** Webex Contact Center, Cisco Unified CM and UCCX deployment and migration to Amazon Connect

PAST PERFORMANCE

Partner Engagements: Amazon Connect and GenAI

AMAZON CONNECT · AMAZON BEDROCK · AMAZON Q · LEX · LAMBDA · CONTACT LENS · QUICKSIGHT

Atlantic County, NJ	Capital Rx	City Furniture	MoneyLion	VIP Medical	Cascade Ortho
Fresh Express	Expedia	Fidelity	Flash Mobile	Flash Wireless	ACN
