

BABYLON KNOWLEDGE LLC

Amazon Connect & AI Contact-Center Modernization for Government

Ali (Alex) Nssaif, Founder & Principal Architect
info@babylonknowledge.com · (213) 207-6505
babylonknowledge.com · Mission Viejo, CA

COMPANY OVERVIEW

Babylon Knowledge is a small business that modernizes public-facing contact centers. We move agencies off legacy IVR and PBX platforms onto Amazon Connect, then add AI self-service with Amazon Bedrock and Lex. That cuts call volume and wait times and gives every agent the full case history on screen. Work is led by a principal architect with 12+ years in Unified Communications and contact centers and 20+ years in enterprise IT, including AI service systems already running in government offices.

CORE COMPETENCIES

- Contact-center migration:** Cisco UCCX/UCCE, CUCM, Avaya and Webex to Amazon Connect, with SIP trunking via Cisco CUBE
- AI self-service and agent assist:** Amazon Bedrock, Amazon Q and Lex voice and chat bots, RAG knowledge bases, guardrails
- Custom agent desktops:** Streams.js, Chat.js and React contact control panels
- CRM integration:** Salesforce Service Cloud, ServiceNow and Microsoft Dynamics, with automated case and ticket workflows
- Analytics:** Contact Lens, QuickSight, Power BI and CloudWatch KPI reporting
- Resilient, compliant delivery:** multi-region disaster recovery, HIPAA- and PCI DSS-aware design, GovCloud-aware architecture, infrastructure as code (CloudFormation, Terraform, CDK)

PAST PERFORMANCE

Government Offices: AI Service Bot

3 GOVERNMENT OFFICES · 50+ ORGANIZATIONS

Engineered and deployed an AI bot system integrated with Microsoft Teams and Cisco UCCX to improve citizen and customer service delivery.

Live in 3 government offices

Amazon Connect Client Experience

VIA CLOUDHESIVE, AWS PREMIER CONSULTING PARTNER

ACN

Delta Air Lines

Expedia

Fidelity

Judi

Starbucks

Our principal built these Amazon Connect contact centers as a delivery engineer for CloudHesive.

Starbucks

SR. SYSTEMS ENGINEER · 2023

Amazon Connect IVR and Lex-powered omnichannel chat replacing agent-handled store support, with CloudWatch and DynamoDB KPI reporting.

\$300K annual savings

Enterprise Voice and Contact Center

SR. VOICE ENGINEER · 2018-2022

CUCM cluster design, UCCX/UCCE, Webex Contact Center and an API middleware layer integrating AWS Connect with enterprise systems.

\$160K/yr saved via API middleware

DIFFERENTIATORS

Specialist, not generalist

Focused Amazon Connect and Bedrock practice

Proven savings

\$1M+ profit impact delivered through UC improvements

Principal-led

Agencies work directly with the architect who builds the system

Recognized

Best Employee two years running at a 3,000+ person company
