

BABYLON KNOWLEDGE LLC

Amazon Connect & GenAI Contact-Center Modernization for Government

Ali (Alex) Nssaif, Founder & Principal Architect
info@babylonknowledge.com · (213) 207-6505
babylonknowledge.com · Mission Viejo, CA

COMPANY OVERVIEW

Babylon Knowledge is a small business that modernizes public-facing contact centers. We move agencies off legacy IVR and PBX platforms onto Amazon Connect, then deploy GenAI self-service bots and agent assist with Amazon Bedrock, Amazon Q and Lex. That cuts call volume and wait times and gives every agent the full case history on screen. Work is led by a principal architect with 12+ years in Unified Communications and contact centers and 20+ years in enterprise IT, including AI service systems already running in government offices.

CORE COMPETENCIES

- Contact-center migration:** Cisco UCCX/UCCE, CUCM, Avaya and Webex to Amazon Connect, with SIP trunking via Cisco CUBE
- GenAI bot deployment:** Amazon Bedrock, Amazon Q and Lex voice and chat bots for self-service, real-time agent assist, RAG knowledge bases, guardrails
- Custom agent desktops:** Streams.js, Chat.js and React contact control panels
- CRM integration:** Salesforce Service Cloud, ServiceNow and Microsoft Dynamics, with automated case and ticket workflows
- Analytics:** Contact Lens, QuickSight deployment and user training, Power BI and CloudWatch KPI reporting
- Resilient, compliant delivery:** multi-region disaster recovery, HIPAA- and PCI DSS-aware design, GovCloud-aware architecture, infrastructure as code (CloudFormation, Terraform, CDK)

PAST PERFORMANCE

GenAI Self-Service Bot Deployments: Government

AMAZON CONNECT · AMAZON BEDROCK · AMAZON Q · LEX · MICROSOFT TEAMS · CISCO UCCX

- Atlantic County, NJ** (partner engagement): Amazon Connect GenAI self-service bot plus real-time agent assist for county contact-center staff.
- 3 government offices:** AI service bot integrated with Microsoft Teams and Cisco UCCX, also rolled out to 50+ private organizations.

GenAI bots live in county and government offices
